(Continued)

Outside of office hours I lived much as I had lived in my College days. Some of the girls I knew were teaching, two were training as nurses, and most were working. We worked ten hours and had parties in the summer, shopped, went for long walks or strolls, shopped, and met as many others as possible. We were a happy group. We were not always just girls alone. The "boys" were mostly ardent students or young fellows just beginning a business career, and they, too, were really good company. They conducted us on our own. There were one or two engagements in our circle, and the usual youthful tragedies. It seems to me that until war broke out we were not always more or less happy. Irresponsible children, of course, were not, and although some of us have married, not one more than one or two boys and girls who are growing up now, we seemed to feel that life was long and that the time for courtship and learning need not be hurried.

Mother loved young people especially young men, and she was the ideal mother. She had plenty of time for them, though I think I was popular especially, and I believe that at the bottom of her heart her greatest wish was to see me married. She had, of course, the best of the company, the environment, and what she called, "the subtle danger of financial independence." Perhaps the best guarantee of her love was the fact that she was not at that time, and Mother knew me too well to believe that I would ever be satisfied with half a life. She had been a widow when she was twenty-two. "And I have never regretted it," she would tell me. All my troubles and worries have been small compared with the happiness of others and our father home now. I did not very like to be independent when you are young, Margaret Anne, but a "lone woman" is the lonely thing in creation, don't make any mistake about that!"

CHAPTER TWO

It was rather a shock to Mother, I feel, when my first "professor" appeared on the scene she was in spite of her efforts, at all points, to keep me away from him. I had to have him to make a recent lecture. Whenever one of "the boys" showed signs of having acquired a temporary preference for her, Mother would always say, "I don't like him, he's too good for you." She would always advise me to adopt him, if he were the appropriate kind, and I used to tell her that the boys came to our house more to see me than to see Mother. I had no idea that she was right.

Mother was a good mother, I feel, though I was not the adopted kind, and I used to tell her that the boys came to our house more to see me than to see Mother. I had no idea that she was right.

"I Had Bilious Attacks and Stomach Weakness"

Mrs. Wm. Robinson, Yonker, Saks, writes:

"I suffered from stomach and liver trouble, and used to have bilious attacks so bad that I could do nothing for weeks at a time. My stomach would be so weak that not even a drink of water would stay on it. On my sister's advice, I began to use Dr. Chase's Kidney-Liver Pills, and must say that they have made me feel like a new woman."

DR. CHASE'S
KIDNEY-LIVER PILLS

One pill a dose, 25 Cents a box, all dealers, or Edmiston, Bates & Co., Ltd., Toronto.

but I could not see myself taking any of them seriously. I liked to visit with them, to dance with them, to preach to them when I thought they were in it, and necessary, to put any "cousin" girl in her place when she was all. Compared with the men I met during office hours they were really immature, they lacked the glamor of the city, and the social life.

But to get back to the "prospect" as I called him, to Mother's uncombed hair, I was Benjamin Franklin, or Washington, or George Washington, the man who had so bountifully won first I went to work. Mother and I had known him for years, we'd been with the Elbert Jones, but never to him. He was a good boy, who always had a smile for Mother and me in a helpless sort of way—the kind of man who asks about your dolls when you are fifteen, and who has a kind of boyishness, bringing chivalry by the box instead of in a bag. Maude told me once that he had been engaged years before to a girl who died of consumption, and he had never been engaged to anyone else. I was living in the Middle Ages of Romance at the time and for about twenty years made up stories about him. His eyes were blue, his hair was prematurely grey, he was not the stuff of which heroes are made. He was, well, not exactly fat, but undeniably fat, padding his shoulders, his wrists were adroitly, but the way of a boy, and he was, and he was very what I have since learned to call a "fat man's" cook, while his taste in fashions was arréte.

When I went into the office I discovered that "B.F." as he was called there, had another side. I began to him to him to explain that he was not a large and very old (Morgan Company). He was at the head of the Insurance Department, and was a valuable employee of all that had been done to him in the past. He was, perhaps, not conspicuously or executive ability, but such was his grasp of details that in his department he was the best. He was a man with the precision of a swiftest horse, his ignorance of uselessness intertwined with his aptitude. In his own way he was indispensible. He was the best-paid man in the service of the Company—generally, too, he was in a financial way, was, too, the man who could be called a "fat man's" cook. B.F. had very little to do with each other in the office, and one thing I liked about him was that he was always willing to treat me exactly as I was, and I was a girl. I don't know two people in the office knew that we were old friends.

Maudie was delighted, and we almost quarreled because I could not see that it would be a perfectly decent thing for her to come to my office. She had given him a good name, who had given her his dolls and his help with her lessons.

He is good enough for anyone,"

Maudie declared. "He isn't really bad, and you know that he is as kind as a boy can be."

I suppose I was unnecessarily dense, but there was some excuse for me. When B.F. came to the house, he was a boy, and he was a boy when he left me, and he never asked me to run out with him alone.

When we went to the theater or to a concert Mother was always with us, and in the evenings, when I often had a social evening with one of the girls, to find him playing whist with Mother and the Robertsons, I was always a little worried.

Mother was a naturalist, was more interested than I was, and I was greatly surprised of him to her. I had no means of discovering this, while she might understand my silence, and sensed that I was losing my head, if not my heart. It was not until she had come back with us, the first night that we had not discussed fully and freely, and I knew it was a safe bet to bring him home again.

I shall always, I always believe that it was really Mother whose companion

It was not until she had come back with us, the first night that we had not discussed fully and freely, and I knew it was a safe bet to bring him home again.

I shall always, I always believe that it was really Mother whose companion

he desired. He liked to see me playing around, no doubt, and I suppose it taunted him to be seen in company with a girl strong enough for his daughter.

Maudie was delighted, and we almost quarreled because I could not see that it would be a perfectly decent thing for her to come to my office. She had given him a good name, who had given her his dolls and his help with her lessons.

I can remember being very much put

alive that when we made the acquaintance of a naturalist who said that I was rather precocious mentally but of slow development otherwise. I know now that he was right, and that I was a naturalist in more than one way.

One evening I could hold him over Mother's head, and made him give advice to me on subjects of early marriage; a man once told me that he had a natural monopoly over me, while the boys knew me in the dim distance and only occasionally came close enough to me to say something, and so I was told about "one chape with money who could give a girl a good time." I did not want to be good times, nor my culture, nor my good looks, but I was very good company.

In one way he used to be good company, though he did not like to take me to the rink or to a picture show, could it? And until B.F. asked me to marry him I could scarcely be induced to go to the rink or to a picture show, could it? And until B.F. asked me to marry him I could scarcely be induced to go to the rink or to a picture show, could it?

He was after this Mother began to feel sorry for B.F., and I had to be very nice with him, and the same way Mother was always around the way, absolutely irresponsible—almost to the point, I used to tell her, of giving away her last crust or her only daughter.

She really had some awfully nice old fashioned chivalrous ideals. So it did not mind he would just ask me to marry him, and I had to be very nice with him, and the same way

She really had some awfully nice old fashioned chivalrous ideals. So it did not mind he would just ask me to marry him, and I had to be very nice with him, and the same way

It was after this that Mother began to feel sorry for B.F., and I had to be very nice with him, and the same way Mother was always around the way, absolutely irresponsible—almost to the point, I used to tell her, of giving away her last crust or her only daughter.

She really had some awfully nice old fashioned chivalrous ideals. So it did not mind he would just ask me to marry him, and I had to be very nice with him, and the same way

PROTECTING COAL INDUSTRY
* * *
Strict regulations for the protection of the Alberta coal industry, and for the prevention of wildcatting in coal companies which has developed in Ontario in connection with the campaign to put Alberta coal on that market, have been passed during the past week by the Alberta Government.

These regulations are aimed chiefly at the wildcatting which has been going on in Ontario by irresponsible people, presumably owners of Alberta properties shipping coal. They, however, have general regard to the protection of the industry at large. The regulations provide for the shipping and selling of coal under duly registered names. Information re-

pecting the name of the shipping company, the registered name of the coal, the grade and date of shipment must be placed on every shipping bill and be displayed on the car doors. The same applies to the keeping of records of sale of coal from each mine in the province, and also applies to the advertising of such coal, so far as the registered name of the coal is concerned. The regulations provide for the appointment of inspectors who have power to inspect any shipment or quantity of coal sold, to ascertain whether it conforms to the information given. Infraction of these regulations is punishable by a fine not exceeding \$1000 or imprisonment not exceeding six months, or both.

The Ontario government has taken steps to supervise the shipment to Ontario points of coal from Alberta under the special rate of 37 a ton given by the C. N. R. up to October 21. These Ontario purchasers are ranging for coal under this special rate must forward their names, together with the names of the firms from which they are purchasing in Alberta, to the fuel controller. This list will then be forwarded to the trade commissioner of Alberta, who is asked to pass upon the capacity of the firms concerned to supply the coal. The Ontario government has already received applications for more than the 10,000 tons granted the special rate by the C. N. R.

—CHAUTAUQUA NOTES—

The first company of Swiss Yodlers ever brought to America will be in Didsbury, at Chautauqua, on Monday evening.

Mr. McLoone wishes the ladies to know that electricity will be on Tuesday morning. Please do your ironing then as we want all the power for Chautauqua in the afternoon.

Helena K. Evans, Chautauqua Director arrived in Didsbury Wednesday morning.

Don't fail to let the kiddies enjoy Will Lee, the clown, at Chautauqua on Tuesday. He gives a very fine physical culture talk and demonstration.

Honorable Charles Poole, a member of the New Zealand Parliament, gives a clear concise address on conditions in New Zealand at Chautauqua Tuesday night.

You cannot afford to miss the Elder Willoughby ladies orchestra and Mr. Claude Schell of Chautauqua on Wednesday.

DR. TORY STAYS

President Tory of the University of Alberta, has declined an offer of the chairmanship of the Canadian Scientific Research Council and will remain as head of the Alberta University.

YOU GET THE AMOUNT OF THAT CHEQUE

We have made arrangements with the E. H. Heath Co. Limited who publish the CANADIAN POWER FARMER whereby we are able to offer the same magazine together with our own weekly at the one price of 25 cents per copy.

The CANADIAN POWER FARMER is a Western Canada's biggest farm monthly. It is now in its twentieth year which means that it is the longest established farm magazine in Western Canada with the greatest circulation of any farm paper. Every issue is full of helpful hints and experiences in the operation of all kinds of farm machinery. It is a valuable guide to a trade and a valuable educational aid to the farmer. It is thoroughly familiar with every branch of farming both from the practical and theoretical standpoint. Every month the magazine publishes special reports to be read by readers. Many of these are short on findings that are real money makers to farmers.

This offer may be withdrawn at any time. Without notice, and without cause for withdrawal, then, who not take advantage of this offer? Your subscription to this weekly together with a year's subscription to the CANADIAN POWER FARMER for the same price as this weekly alone. This is where you get the \$1.50.

Mail your cheques or drop them in our office the first

time you are in town.

WEDNESDAY, OCTOBER 3d,

RETAIL ADVERTISING

Done advertising part? The question is often asked, not often however, by the experienced advertiser. He knows that advertising pays.

The recent strike of messengers in New York afforded curious proof of this. The strike took place at the height of the bargain season. A dearth of women shoppers was noticeable as soon as the strike got under way and kept the daily news papers from buyers.

The United Press interviewed department store heads and confirmed the fact that shopping decreased each day that the city went without its papers.

A visit to the larger department stores during the strike found them deserted.

"The slump in our shopping is caused by our inability to advertise in the newspapers," asserted the executive of one of the largest of these stores. "The first day of the strike business was not so bad—the impetus of the previous day's advertising carried us over. Wednesday was worse. Today it is awful. Friday and each succeeding day we cannot advertise, it will be more noticeable."

One large store broke ancient rules and filled its great show windows with signs inviting the passer-by within. At the door the customer was met with special sale cards and page newspaper advertisements, prepared by the newspaper, but printed in job shop. "This is the ad. we would have published today were it possible," a legend at the top of the sheet reads.

To the retail store that gives good goods and good service advertising is not a speculation. It's a positive creator of business. What occurred during the New York newspaper strike has convinced retailers throughout America that sales depend even more than they had before upon regular newspaper advertising.—Circular Herald.

STOCKER AND FEEDER SHOW

The first annual stocker and feeder show and sale in Alberta will be held at the stock yards, Calgary, October 9 to 12. Over \$50,000 in cash prizes is being offered. The awards are being given as an educational feature in demonstrating the best types, weight, quality and finish, feeding cattle. Entries for the show may be made through local agricultural commissions, agent at the Alberta stock yards up to 12 noon October 8. In the entry the name of the owner, number of head, breed, age and name handle them should be given. All stock must be in exhibition pens by 12 noon on October 9. All cattle entered in the show or sale must be sold to the highest bidder through the ring, at auction, by arrangement with the secretary. Cattle entered in the carlot competition are not eligible for entry in the group classes and vice versa. There are championships in both groups.

A WONDERFUL YIELD OF DAYS

Reports are coming in out of the mounds of high yields of grain of every kind and it is common to hear of wheat running anywhere from 40 to 60 bushels to the acre and in one case 71 bushels. But the highest yield reported yet is one of 123 bushels of oats per acre by G. C. Cummings of Bentley, west of Lethbridge. This figure can be verified by telephone records. Another farmer east of Lethbridge is reported as having received \$10 bushels of oats from six acres.

What is the Didsbury district golfing? Let us know if you hear of very big yields. Phone 12 and we will gladly do the rest.

(a) PROHIBITION—Meaning thereby a continuance and development of the present liquor legislation; that is, meaning the abolition of the sale of all liquors excepting for strictly medicinal, sacramental, manufacturing and scientific purposes.	
(b) LICENSED SALE OF BEER—Meaning thereby the sale of beer in licensed hotels and other premises as provided in the proposed Temperance Act.	2
(c) GOVERNMENT SALE OF BEER—meaning thereby the sale of beer by or through government vendors for consumption in private residences under government control and regulation, other liquors to be sold through doctors' prescription for medicinal purposes.	3
(d) GOVERNMENT SALE OF ALL LIQUORS—Meaning thereby the sale of all liquors by or through government vendors, beer to be consumed on licensed premises and in private residences; wines and spirits to be purchased in limited quantities under permit issued by the government, under governmental control and regulation.	1

DO NOT MARK YOUR CHOICE—on this ballot with an "X". If you do your ballot will not be counted.

VOTE "1" FOR CLAUSE "D"—Government Sale and Control of All Liquor.

VOTE "2" FOR "B" as it approves of the sale of beer on licensed premises under government control.

VOTE "3" FOR "C" as it approves of the sale of beer for beverage purposes.

Your vote will seriously affect conditions in Alberta; it will restore respect for law and order, and reduce expenses of law administration.

If "A" carries it will increase taxation to support stool pigeons and the profits from the sale of liquor for beverage purposes will continue to enrich the BOOT-LEGGING FRATERNITY.

TENTH SEMI-MONTHLY CROP REPORT

Issued by Department of Agriculture, Edmonton, Alberta, Saturday September 29th, 1928.

Harvesting of Alberta's wheat crop is completed and threshing is well under way. In practically all districts with 50 per cent. finished in the southern part of the province. Cutting of oats has been finished, and a greater part of the green feed has been cut.

Rain which came during the week of the 17th, accompanied by cold weather, turned to heavy, wet snow in the northern districts and throughout the western half of the province, lodging what grain and greenfeed was left standing.

The snow was followed by frost on the 21st, which damaged late grain, greenfeed, sunflower, corn, somewhat, but did practically no damage to wheat, save a reduction in grade in some localities. The storm caused delay to threshing operations, but fine, warm weather is now prevailing, the grain has dried out well and threshing is proceeding under favorable conditions.

Wheat generally speaking is grading high and yielding remarkably well. Many heavy individual yields are being obtained, and all threshing reports to date indicate that all of the official estimates on the probable average yield have been too low.

The work of filling silos is now well advanced. There has been a considerable increase this season in the number of silos and in the acreage in silage crops.

FARMERS OF WESTERN CANADA

11,000 Britshers came to Canada to assist in harvesting your crops.

Many of these men desire to remain if opportunities of winter employment are offered them.

Canada needs settlers and your assistance in retaining desirable newcomers of winter. British stock is earnestly solicited.

If you require a man this winter for farm work or other employment, kindly furnish full particulars to the Soldier Settlement Board at Calgary, Alberta, or communicate with the Board's local field representative, Mr. H. Sawley at the Rosebud Hotel, Didsbury Alta.

FOUND—Overcoat and horse blanket. Owner may have same by paying for this ad. 39

WANTED—Man and wife with job on farm, wife a good cook. Information at Pioneer Office. tfo38

FOR SALE—Good piano for sale. Price \$250. Piano at Jim Devolen home. Write or phone 607 Cochrane Alta. 3937

FOR SALE—Having sold my driving team I have the following for sale or trade: 2 sets double driving harness; 3 sets single driving harness; set racing harness; 2 carts, one suitable for school cart; 2 rubber tired show buggies; children's school buggy and family surrey; old count, 15 style. 1fc36

D. Sinclair.
